FOR IMMEDIATE RELEASE

CHARTCARE's EMR Rated #1 in New KLAS Category

LAKESWOOD, Washington, March 15, 2004 – CHARTCARE, Inc. of Lakewood announces that their Electronic Medical Records (EMR) software is the highest rated EMR in a new category introduced by KLAS Enterprises, LLC – ‘**Ambulatory EMR (6-25 physicians)**’.

CHARTCARE received the 2003 ‘**Best in KLAS**’ Award December 15th, 2003 for being the highest rated EMR in America for group practices under 25 physicians in the ‘Top 20 Year-End Best in KLAS Report’.

KLAS is the only research and consulting firm specializing in monitoring and reporting the performance of healthcare information technology (HIT) software vendors. The KLAS database reports vendor performance data from 4000 healthcare facilities, 300+ HIT vendors and 500+ different products.

“This new category better reflects our position in the marketplace and our continued #1 ranking demonstrates our true value to group practices”, said Dennis Niebergal, president and CEO of CHARTCARE. “It is rewarding that KLAS’ ongoing evaluation of our EMR through direct Customer feedback continues to rate our EMR at the top”. “After 20 years of listening to what our Customers want in an EMR, it is not surprising that our Customers have a product that they like and that works”.

CHARTCARE’s unequalled Security and Privacy features combine with IBM’s rock-solid server platform to make the most secure Electronic Medical Records system in the marketplace. Physicians and staff feel comfortable learning CHARTCARE software. Because of CHARTCARE’s experience, training time is minimal and emphasis can be placed on identifying and dealing with change and workflow processes to help medical practices adjust to the transition to a ‘chartless’ environment with the least impact.

About CHARTCARE

CHARTCARE, Inc. (www.chartcare.com) has specialized in software development for the ambulatory physician market since 1984. Some Customers have been using CHARTCARE's EMR on their secure, in-house servers for over 19 years. CHARTCARE has branch offices in the United States and Canada, with its Head Office in Lakewood, Washington, a suburb of Tacoma.

About KLAS

KLAS Enterprises, LLC (www.healthcomputing.com) has partnered with thousands of healthcare professionals (executives like CFOs and CIOs along with Directors, Managers and Clinicians) creating a dynamic database of performance information on Healthcare Information Technology software vendors. The KLAS database benefits all players in the healthcare market by reporting vendor performance data from 4000 healthcare facilities, 300+ HIT vendors and 500+ different products. KLAS subscribers see the latest, most current performance information because the database is continually updated with reports from healthcare professionals across the U.S., Canada and selected countries around the world.

###

This press release may contain forward-looking statements, including those that may be related to revenue and net income that involve a number of risks and uncertainties. Among the important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are volume and timing of systems sales and installations; length of sales cycles and installation process; the possibility that the products will not achieve market acceptance; seasonal patterns of sales and customer buying behavior; the development by competitors of new or superior technologies; delays in product development; undetected errors or bugs in software; product liability; changing economic, political or regulatory influences in the health-care industry; changes in product-pricing policies; competitive pressures; general economic conditions.
